

It is now 2004 and we are now in a digital era.....media is changing by the week. AM/FM Broadcasting is becoming outdated just like the 8 Track, LP, CB Radio, VHS, and so on. Satellite radio and TV is here to stay. They have the right to broadcast weather and traffic. Why shouldn't they. The Polaroid Camera company is nearly out of business because their technology has become obsolete. That's the way it goes. This is the USA.
